Continuation of 2. NOTE: The amendment to the claim 1 "at least one pair of primers", claim 5 "5" and "3", and claim 32 "anchored primers" would raise new issues under USC 103. These claim amendments would require a search of the possibility of multiple pairs of primers, specific primers with a "5" cassete with 30 to 35 nucleotides with a "3" sequence of 6 or 9 random nucleotides, and a kit comprising "anchored primers" which were not previously required, and therefore, would require further search and consideration of the prior art.

Continuation of 5. does NOT place the application in condition for allowance because: for the reasons of record, in view of the non-entry of the amendments filed on December 26th, 2001.
